

ABBREVIATIONS

NOEC – no observed effect concentration

LOEC – lowest observed effect concentration

EC(D)50 – effect concentration or dose measured as 50% effect

EC(D)100 – effect concentration or dose measured as 100% effect

EC(D)16 – effect concentration or dose measured as 16% effect

EC(D)84 – effect concentration or dose measured as 84% effect

LD – lethal dose

LT – lethal time

Kcum – coefficient of cumulation
